Dina gives away 8 stickers.

Name _____

Fill in Your Own Blanks

Write your own numbers in each problem.

Draw ○ to solve.

1. Dana has 8 spaceships.

He gives some away.

He has 5 left.

How many spaceships does Dana have now?

— spaceships

2. There are astronauts in a spaceship.

 astronauts return to earth.

How many astronauts are in the ship?

— astronauts

3. Milly has space suits.

She gives some away.

She has left.

How many space suits does she give away?

— space suits

Writing and Reasoning Explain how drawing a picture helps you find the answer.

Fill in Your Own Blanks

Write your own numbers in each problem.

Draw ○ to solve.

1. Dana has 8 spaceships.

He gives some away.

He has 5 left.

How many spaceships does Dana have now?

3 spaceships

2. There are 9 astronauts in a spaceship.

2 astronauts return to earth.

How many astronauts are in the ship?

Answers will vary. Accept all legible answers.

7 astronauts

3. Milly has space suits.

She gives some away.

She has left.

How many space suits does she give away?

 space suits
